Tutorial for the Actuarial Information Browser

Contents

- Introduction
- Select reinsurance year on the AIB Landing Page
- Select criteria
- Viewing maps by Grid ID
- Using the left navigation links
- Changing your selection criteria order
- Selecting your criteria
- Defaulting to selected criteria
- Using the Clear button
- Viewing reports
- Changing reports
- Using Breadcrumb links
- Show / Hide button

Introduction

3

- This tutorial provides general guidance on the features of the Actuarial Information Browser (AIB). The AIB allows users to see reports on actuarial data (such as commodities, rates, prices, and maps).
- After completing this tutorial, you will be able to:
 - ▣ Select a reinsurance year
 - ▣ Select your criteria and change the order of selection criteria
 - ▣ View maps with the Grid ID Tool
 - ▣ Clear data and view reports
 - ▣ Navigate via breadcrumb links
 - ▣ Show / hide the selection criteria to view more report information

Select reinsurance year - AIB Landing Page

4

The AIB Landing Page allows you to select a Reinsurance Year for the data you want to view.

Note: The navigation menu in the blue pane on the left lists other applications you may use, depending on your role.

Internal RMA users can also view data before it is published.

AIB Landing Page

Please select a Reinsurance Year from the list below

- Reinsurance Year 2011
- Reinsurance Year 2012
- Reinsurance Year 2013

Browse by Application

- AIB Landing Page
- AIB 2011
- AIB 2012
- AIB 2013
- Agent Locator
- Cost Estimator
- Price Discovery
- Prices Inquiry
- AGR Commodity
- Livestock Reports
- Subsidy/Admin Fees
- Dates Inquiry

Select criteria

5

Using this set of dropdown lists provides access to Crops, Livestock, and Rainfall & Vegetation Index offer information. This allows you to find Apiculture, for example, in a single list rather than requiring you to know that the Apiculture commodity is offered under the Rainfall Index, which has a fast path link on the left-hand navigation pane.

Clicking the [Grid ID Tool](#) link displays a map for the selected criteria.

The screenshot displays the USDA Risk Management Agency Actuarial Information Browser interface. The page title is "Actuarial Information Browser" and the breadcrumb trail is "RMA Web Applications > AIB 2013 > Rainfall Index". The main heading is "Rainfall Index".

On the left, a "Browse by Application" navigation pane lists various categories. The "Rainfall Index" category is highlighted in green. A red arrow points from the text on the left to this category.

The main content area contains a form with the following fields:

- Insurance Plan: Rainfall Index (13)
- 1 Commodity: Select a Commodity
- 2 Commodity Year: Select a Commodity Year
- 3 State: Select a State
- County: Select a County
- Grid ID: Select a Grid ID

A red box highlights the entire form area. Below the form, there are three buttons: "Clear", "Grid ID Tool" (which is also highlighted with a red box), and "View Report".

Viewing maps by Grid ID

6

The Grid ID you selected displays as Current Location on the left panel of the map.

You can close the map window by clicking the X in the upper right corner of the map.

Grid Locator Apiculture

Find a Location:

Enter name, address, or latitude/longitude values. [More Info](#)

Current Location

Grid ID: 21427
Latitude: 37.85751°N
Longitude: 98.4375°W
County: Reno
State: Kansas
Address: 16301-17599 S Brownlee Rd, Sylvia, KS 67581, USA

Grid Tools:

- [Decision Support Tool](#)
- [Historical Rainfall Indices](#)
- [View Actuarial Info](#)
- [View Cost Estimator](#)

Steps

1. Enter nearest town or address
2. Click Search
3. Navigate to property
4. Click a point on property
5. Print view for records
6. Note the Grid ID
7. Choose grid tool to view data

Latitude: 37.85751°N
Longitude: 98.4375°W
County: Reno
State: Kansas

Zoom to Grids

Using the left navigation links

7

These fast path links on the left navigation pane allow you to quickly narrow down the number of selection items by restricting those lists to only the results that apply.

The screenshot displays the USDA Risk Management Agency Actuarial Information Browser interface. The left navigation pane is titled "Browse by Application" and lists various options, with "Rainfall Index" highlighted in green. The main content area shows the "Rainfall Index" application with a breadcrumb trail: "RMA Web Applications > AIB 2013 > Rainfall Index". A red box highlights the "Commodity" dropdown menu, which is currently open and showing a list of options: "Select a Commodity", "Apiculture (1191)", and "Pasture,Rangeland,Forage (0088)". Other fields include "Insurance Plan" (Rainfall Index (13)), "Commodity Year" (Apiculture (1191)), "State" (Select a State), "County" (Select a County), and "Grid ID" (Select a Grid ID). Buttons for "Clear", "Grid ID Tool", and "View Report" are visible at the bottom.

Changing your selection criteria order

8

Changing the order of your selection criteria allows you to decide how to filter the information you want to see.

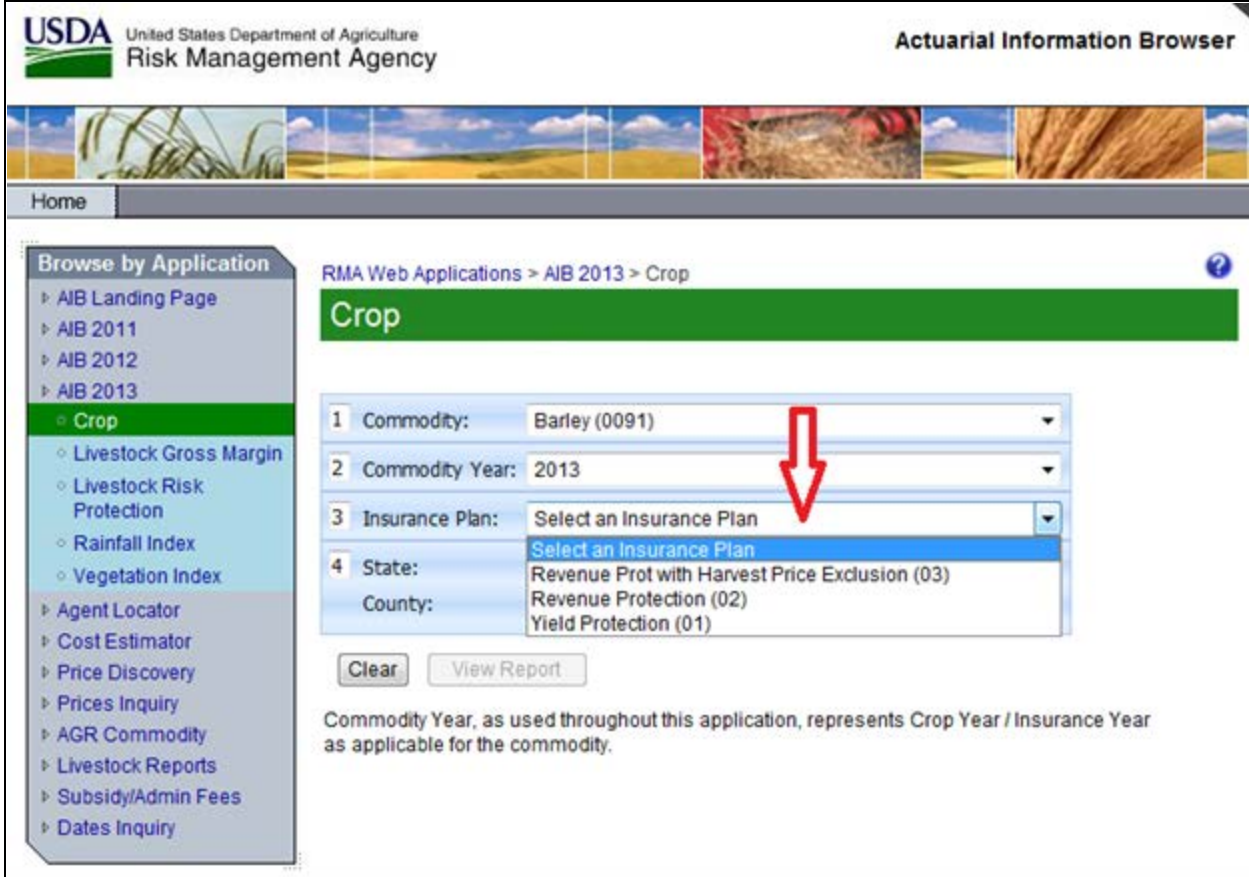

Type numbers in the order you want the criteria to display and press **Tab** or click outside of the text box to trigger the reordering..

The screenshot shows the USDA Risk Management Agency Actuarial Information Browser interface. The page title is "Actuarial Information Browser" and the header includes the USDA logo and "United States Department of Agriculture Risk Management Agency". The breadcrumb trail is "RMA Web Applications > AIB 2013 > Crop". The main content area is titled "Crop" and contains a form with five selection criteria: 1. Commodity: Select a Commodity, 2. Commodity Year: Select a Commodity Year, 3. Insurance Plan: Select an Insurance Plan, 4. State: Select a State, and County: Select a County. The numbers 1 through 4 are highlighted in a red box, indicating the order of selection criteria. Below the form are "Clear" and "View Report" buttons. A note at the bottom states: "Commodity Year, as used throughout this application, represents Crop Year / Insurance Year as applicable for the commodity."

Selecting your criteria

9

These dropdown lists contain only the valid combinations of insurance offer information in the system. It is a drill-down mechanism that filters each subsequent list from top to bottom.
